The IMO STCW Convention requires that a cadet’s seagoing service must be recorded in a training record book approved by the maritime administration responsible for issuing certificates of competence. *

To help employers ensure compliance, ICS has updated its widely used On Board Training Record Book for Engine Cadets (Trainee Officer), to take account of the amended competence requirements in STCW 2010, which entered into force in January 2012.

The revised ICS Book takes full account of the new competence standards stipulated by STCW 2010, such as the application of leadership and team working skills and proactive measures to protect the marine environment. The training tasks included have been developed to ensure that cadets make the best use of their seagoing service, and to help supervising officers make an objective evaluation of whether cadets are competent.

The ICS On Board Training Record Book for Engine Cadets can be used by trainees in order to provide documentary evidence to government appointed assessors of having completed a properly structured on board training programme in accordance with STCW 2010.

The ICS On Board Training Record Book for Engine Cadets:
- Significantly revised to take full account of the new STCW 2010 competence standards
- Structured tasks to meet official STCW assessment requirements
- Additional tasks concerning safety at work
- Examples of written projects cadets can undertake as part of their training

The books are priced at £30 per copy (including airmail postage). Five or more books can be ordered for only £20 per copy. To order, please use the form overleaf or contact your maritime bookseller.

* These Training Record Books are referred to as a model in the footnotes to STCW 2010.
**Bulk order discounts**

- **20% discount** for orders of 50 or more copies of the same publication or for any order exceeding £750*

- **30% discount** for orders of 100 or more copies of the same publication*
