

ICS GUIDE TO HELICOPTER/SHIP OPERATIONS

FOURTH EDITION

The fourth edition of the ICS Guide to Helicopter/Ship Operations reflects current best practice in the international shipping and aviation industries, and supersedes the last edition.

The ICS Guide has been fully updated with extensive guidance regarding the role and responsibilities of both the ship and helicopter, using expert advice from the aviation industry. It is strongly recommended that a copy is carried on board every ship (and is obtained by shipping companies and helicopter operators).

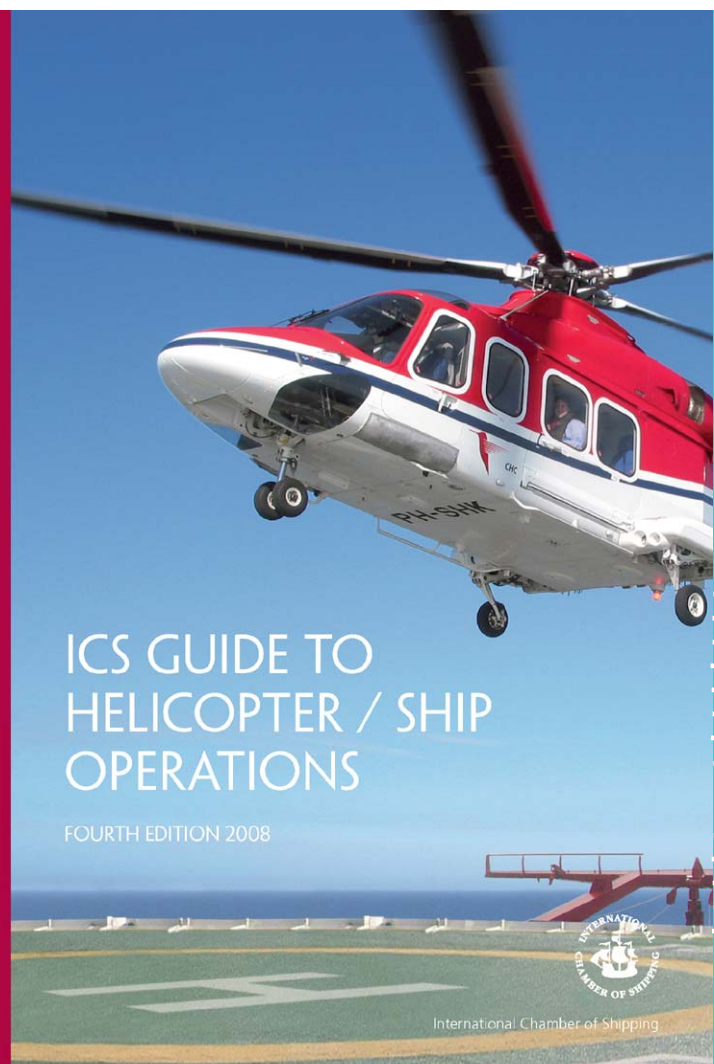

To provide additional value and utility, this new edition is accompanied by a **CD version** of the text with a 'search' function.

The CD also includes an electronic template for preparing helicopter landing/operating plans for transmission from the ship to the helicopter operator.

The fourth edition, complete with detailed illustrations, takes full account of:

- Latest specifications for helicopter performance
- Latest ICAO (aviation) requirements for the safe location/marketing of landing and winching areas
- New guidance on the growing practice of transfer of marine pilots direct to the bridge wing
- Revised guidance on actions to be taken in the event of helicopter incidents.

The Guide (with CD and planning template) is priced at **UK £120** and is available from your maritime bookseller or from Marisec publications using the form overleaf.

Marisec Publications Order Form

To order a publication, other than those in the Witherby Publishing Group section, please photocopy and send this form to:

Marisec Publications, 38 St Mary Axe, London EC3A 8BH
